Minutes of IARC meeting 76, August 17th, 2021

In attendance: Corey Watson, Ayelet Peres, Gur Yaari, Martin Corcoran, William Lees, Mats Ohlin

1. **Approval of minutes of meeting 75**
   Approved

2. **Presentation of new features of coming release of OGRDB**
   WL has developed the OGRDB interface to address future needs. The features were presented and discussed.
   - SeqID to be introduced a unique 4-letter/digit entry that associate to the sequence
   - Annotation of genomic derived sequences and support for such features (with or without association to inferred sequences)
   - Presentation and discussion of how Germline sets are to be managed in the OGRDB
   - WL will arrange a meeting with Christian Busse to present the new features of OGRDB and to discuss how new sequence naming processes can be supported in the system.

3. **Next meeting**
   August 24, 2021 at 10.00 UTC
