

IARC Meeting 52: April 6th 2020: minutes

The meeting commenced at 10:00 UTC. AC, MO, and WL were in attendance. Corey Watson also attended.

1. The meeting was held just as Australia came off Daylight Saving Time, and Europe and the UK moved onto Summer Time. These led to confusion about the starting time of the meeting, and it lacked a quorum until 10:30 UTC. It was agreed that formal consideration of IGLV sequences from S00028 should be deferred until the next meeting. Discussion then continued regarding the challenges of evaluating light chain inferences.
2. The next meeting (Meeting 53) will be held on April 6th at 10:30 UTC.

The meeting ended at 11:00 UTC.
